

Kid and Play Newsletter

Whew! Kid and Play has just completed their fifth and highly successful Summer Session. Kid and Play conducted individualized family summer programs based on our little one's needs. They were treated to a wide range of activities both in and outdoors. The highlight for one family was a spectacular play performed by our Education and Drama group. A resounding round of applause for a job well done!

Kid and Play's staff addressed all our little one's needs this summer. We had: remedial tutoring to assure success this coming school year, trips to parks, outdoor events, sporting activities, and the usual choices for cool summer fun, pool parties and movies. Kid and Play pride's itself on taking the creative approach! We don't simply provide supervision; we worked towards stimulating young minds with our day trips to museums, parks, and government offices so that our children can come to appreciate the significance of our Capital City.

For our non-human family members who didn't join their families on their much-deserved vacation, Kid and Play provided comfort and care with our pet sitting service. From our winged friends to our more earthbound caged-reptilian friends, cats and dogs, kittens & puppies, Kid and Play took care of all thorough out the day, making sure they were well fed, walked, and, of course, well loved.

Kid and Play is excited about the starting school year. Our Education majors are waiting to help with those rough edges on homework assignments as well as provide encouragement to keep our students on grade level. The new school year can bring both challenges and strains to our returning students and we pride ourselves on keeping the learning spirit alive.
